

## 2021 EDS Has Been Cancelled

In planning this year's EDS, the number one concern has always been the health and safety of the attendees and their families. It is in that spirit that **the EDS Board of Directors has unanimously decided to not move forward with 2021 EDS.** In doing so, you should know that we've already begun planning for a successful 2022 EDS at the Mirage in Las Vegas.

We want to thank everyone involved in EDS — management, attendees, participants and the Board of Directors — for your support, solidarity and understanding.

All those who have already made deposits and paid fees will receive specific details in a separate message about a credit or refund. We will continue to keep you updated on future developments.

**EDS 2022 is scheduled for May 10–13, 2022.**

## Webinar: SCIP Database Requirements

Wednesday | August 25 | 11:00 AM Eastern | [Register Today](#)

ECIA is pleased to partner with [Assent Compliance](#) for an informative webinar. Companies around the world, including those in the U.S., are now impacted by a new regulatory requirement to submit data to the Substances of Concern In articles, as such or in complex objects (Products) (SCIP) database. While mandatory for those in the European Union (EU), U.S. companies are facing data requests from their European customers so that they can meet their SCIP obligations. Join two of Assent's SCIP experts, Steven Andrews and Neil Smith, as they explain the latest requirements and how to meet them.

### In this Issue...

1. [EDS](#)
2. [SCIP Database](#)
3. [ECIA Research](#)
4. [Exec Conference Sponsors](#)
5. [Did You Know? Fidelity](#)

### Upcoming Events

Wednesday, August 25

- [What Your Company Needs to Know About the SCIP Database Requirements](#)

Sunday, October 24 - 26

- [Executive Conference](#)

[Weekly Economic Trends National Association of Manufacturers](#)

By special agreement ECIA is pleased to present NAM Chief Economist Chad Moutray's weekly analysis of key U.S. government economic data and manufacturing industry trends in the [NAM Economic Report - 08/09](#).

### Member of the Week

This week we honor [ROHM Semiconductor](#) as ECIA Member of the Week!

ROHM was established in Kyoto in 1958 initially as a

Topics to be covered in this webinar include:

- The EU Waste Framework Directive and SCIP database.
- How SCIP is different from the REACH Regulation.
- How a U.S. company can submit information to the database.
- Update on any future enforcement activities.

## Support the Executive Conference: Become a Sponsor

Charting the Course Forward | October 24 - 26 | [Register](#)

Join many of your peers and become an Executive Conference Sponsor! The [2021 program](#) reflects the enormous task companies face as they map their strategic plan for 2022. The scarcity of skilled labor, component shortages, inflation and continued global geopolitical uncertainty will require leaders to take full advantage of the most current forecast data and innovative thinking. The presentations will provide the thought leadership essential to navigating these turbulent times.

- **Conference Champion:** \$3,750 - includes 2 Registrations, (\$1950 Value), Recognition via Conference materials, Social Media ads, Event Website, App

1967 production was expanded to include transistors and diodes, and in 1969 ICs and other semiconductor products were added to the lineup. Two years later (in 1971), going against conventional Japanese business culture, the company entered the US market by establishing a sales office and IC design center in Silicon Valley.

The company mission statement speaks volumes: *Quality is our top priority at all times. Our objective is to contribute to the advancement and progress of our culture through a consistent supply, under all circumstances, of high quality products in large volumes to the global market.* Company representatives work together to anticipate both customer and market needs while solving social issues. They have a dedication to sustainability and consider it in their corporate social responsibility.

ROHM has been an association member for over 30 years! Travis Moench, Sr. Director of Sales, serves on the ECIA Manufacturer Council. According to Travis, "ROHM Semiconductor has been a member of ECIA all these years because it continues to be the best avenue to work with all of our supply chain partners on a regular basis to continue to improve our services to all of our end customers."

The company also provides valuable contributions to

recognition, On-site Signage, Mention at Conference, Sponsor Ribbon on all Company Name Badges

- **Conference Partner:** \$2,750 - Includes 1 Registration, (\$975 Value) and all of the above recognition
- **Conference Supporter:** \$500 - Recognition on website and at the event

Make your plans to attend the 2021 Executive Conference, please visit [ECIAExecConference.org](https://ECIAExecConference.org) for all the details.

## Did You Know? Fidelity Solutions Is A Trusted Service Partner

ECIA Service Partner [Fidelity Solutions](#) specializes in mission critical, highly transactional web and mobile applications. They take an innovative approach to software solutions by implementing modern application

development practices that include serverless computing, containerized applications, and virtualization.

Their expertise also includes big data storage and retrieval; data analytics and dashboards; API development; multi-language connectivity, discrete, SoC and custom devices. They craft practical and cost-effective solutions to complex problems using their architecture, engineering, design and development expertise. Let Fidelity Solutions help your company optimize its data feed or API for TrustedParts.com.

other committees. They have a strong sense of commitment to the industry and a desire to constantly better the systems and operations being used.

Companies like ROHM Semiconductor show the value of industry advocacy by staying involved. Thank you to the whole team!
