## ECST Monthly Survey & Recent Analysis

### Participation Closes September 18

The Electronic Component Sales Trends (ECST) tracks viewpoints on the sales of electronic components and the impact on end markets by surveying ECIA members, their peers and colleagues. The survey samples individual opinions of professionals in the electronics industry on current monthly performance and a look ahead to future expectations.

We are currently conducting the **monthly** survey that asks for your personal view of market trends. Please take a moment to share your opinion and complete the survey; each participant receives the survey results report. [Click here to participate.](#)

### Recently Published ECIA Research and Analysis

- World Capacitor Trade Statistics – Q2 2020 (Participants & Members Only)
- World Resistor Trade Statistics – Q2 2020 (Participants & Members Only)
- World Inductor Trade Statistics – Q2 2020 (Participants & Members Only)
- Component Lead Time Report – August 2020 (Members & Public Report)
- North America Weekly IP&E Components Index – Week 36 (Members Only)
- North America Monthly IP&E Components Index – August 2020 (Members Only)

To access the full breadth of market data, members should log in to the ECIA website and visit the [Stats & Insights](#) page. Some reports are available to the public, some to members and some only to those whose participate in the survey.

## ECIA-Managed TAG Participants Honored with IEC Award

The US National Committee has announced the US winners of the 2020 International Electrotechnical Commission's [1906 Award](#). The 1906 Award commemorates the IEC's year of foundation and honors IEC experts around the world whose work is fundamental to the IEC and also recognizes exceptional and recent achievement—a project or other specific contribution—related to the activities of the IEC.

George Slama, from the ECIA-managed USTAG for TC 51 (*Magnetic components, ferrite and magnetic powder materials*) and Erik Dunkerly from TC 110 (Electronic displays) were two of 25 Americans who were honored this year.

For more information about ECIA's international standards program, please contact [Ed Mikoski](#), Vice President of Standards and Technology.
