ECIA is pleased to announce a comprehensive webinar series with **The Trust Bridge**, a consultancy that offers organizations a unique combination of expertise and independently accredited training around GDPR, PECR and e-privacy law.

Data privacy was reinforced in Europe with the introduction of the GDPR regulation in Europe in May 2018. Now this strengthening and awareness of the rights and obligations surrounding data privacy extends across the globe to North America, Canada, Singapore, Japan, Brazil and Thailand among others. Companies need to be aware of managing and safeguarding personal data.

The first webinar will focus on Data Protection and Privacy now and what to expect on a global basis in the future.
