FOR IMMEDIATE RELEASE

ECIA 2019 Executive Conference: "Vision 2020 - Leading with Clarity"

Atlanta --The 2019 Executive Conference Planning Committee, chaired by TTI's Melanie Pizzey, has generated a slate of speakers all focused on leadership for what is expected to be a tumultuous decade: the 2020s. The theme is *Vision 2020 - Leading with Clarity* and this year's conference attendees will be enlightened by a stellar roster of speakers who are experts in economics, strategic planning, change management, talent development and disruptive technologies like 5G and transportation -- all seen through the lens of the impact on the electronic components industry.

"The planning committee has been diligent, and we are very grateful for all the time and effort they expended," commented Debbie Conyers, ECIA Vice President. "I'm confident the executives who attend will leave the conference in October well equipped to lead their organizations through the next decade with great success," she added.

"The electronic components industry is experiencing rapid change and a new era of disruption is ahead of us. As we continue to transition into Industry 4.0 a unique set of leadership skills is required to manage organizations through these dramatic shifts." continued Melanie Pizzey, Executive Conference Chair. "Our committee is determined to make this conference the best one yet. Every speaker we chose has something vital to contribute to our message, which we believe is what every CEO and executive in our industry needs to understand in order to successfully lead their organization in the 2020s."

The [Executive Conference](#) runs October 20-22 at the [Loews Chicago O'Hare](#).

About ECIA

The Electronic Components Industry Association (ECIA) is made up of the leading electronic component manufacturers, their manufacturer representatives and authorized distributors. ECIA members share a common goal of promoting and improving the business environment for the authorized sale of electronic components. Comprised of a broad array of leaders and professionals representing all phases of the electronics components supply chain, ECIA is where business optimization, product authentication and industry advocacy come together. ECIA members develop industry guidelines and technical standards, as well as generate critical business intelligence. For more information, visit www.ecianow.org or call 678-393-9990.
